

## The Award Winning . . . . AG Dispenser

*High speed, ease and economical use of materials.*

With greater emphasis on cow comfort it is essential to make sure cubicles are well bedded. This machine has been developed especially with this in mind, enabling milk producers to bed cubicles regularly with speed and ease, minimum dust, economical use of materials and helping to meet the demands of modern dairy farmers.

- The AG Dispenser is labour saving
- 160 cubicles can be bedded in 5-6 minutes.
- Users report a saving of up to 50% in bedding material.
- Designed to bed cubicles with sawdust, shaving, sand, chopped straw, paper and lime.
- Can be used on a tractor or handler.
- Spreads from either side and tilts flat to fill.
- Its simple design requires low maintenance, no PTO, chains or blowers.
- The tilting mechanism allows the Dispenser to be tilted flat to fill when mounted on the rear of a tractor using 3 point linkage / A frame. (optional extra)

*Any tractor will do!*

### Specification:

Model	Capacity (m3)	Unladen (kg)	Width (m)	Depth (m)	Height (m)
<b>AG 150</b>	0.9	318	1.52	0.93	1
<b>AG 175</b>	1.5	530	1.8	1.09	1.02
<b>AG 200</b>	2.1	560	2.04	1.33	1.25
